VINA, CA 96092-0002**

Source Name: NORTH FORK STONY CREEK
Tributary To: STONY CREEK
County: Glenn
Diversion Within: NE1/4 of SE1/4 Section 06, T22N, R05W, MB&M

Year of First Use: 1860

Parcel Number:

A. Water is used under Riparian claim ☒ Pre 1914 right ☒ Other (explain):

B. Year of first use (Please provide if missing above)

C. Amount of Use - Enter the amount (or the approximate amount) of water used each month.

Amounts below are:													Other <u>Stockwater for livestock</u>	Total Annual
Year	Jan	Feb	Mar	Apr	May	June	July	Aug	Sept	Oct	Nov	Dec		
2001	X	X	X	X	X	X					X	X		
2002	X	X	X	X	X	X					X	X		
2003	X	X	X	X	X	X					X	X		

D. Purpose of Use - Specify number of acres irrigated, stock watered, persons served, etc.

Irrigation _____ acres; Stockwatering 200 pairs of cattle Domestic _____

Other (specify) Head count varies depending on which field is grazed, month, rain fall, feed available

E. Changes in Method of Diversion - Describe any changes in your project since your previous statement was filed. (New pump, enlarged diversion dam, location of diversion, etc.)

F. Please answer only those questions below which are applicable to your project.

1. Conservation of water

a. Are you now employing water conservation efforts? YES ☒ NO

Describe any water conservation efforts you have initiated: We rotate fields for grazing and do not overgraze the available grass, tall more grass = less runoff of water and less evaporation of water

b. If credit toward beneficial use of water under claimed pre 1914 appropriative water right for water not used due to a conservation effort is claimed under section 1011 of the Water Code, please show the amounts of water conserved.

Reductions in Diversions:

yr _____ (af/mg) yr _____ (af/mg) yr _____ (af/mg)

Reductions in consumptive use:

yr _____ (af/mg) yr _____ (af/mg) yr _____ (af/mg)

I have data to support the above surface water use reductions due to conservation efforts. YES _____ NO _____

JUL - 9 2004

2. Water quality and wastewater reclamation

- a. Are you now or have you been using reclaimed water from a wastewater treatment facility, desalination facility or water polluted by waste to a degree which unreasonably affects such water for other beneficial uses? YES ____ NO ☒
- b. If credit toward use under a claimed pre 1914 appropriative water right through substitution of reclaimed water, desalinated water or polluted water in lieu of appropriated water is claimed under section 1010 of the Water Code, please show amounts of reduced diversions and amounts of reclaimed water used:
- yr _____ (af/mg) yr _____ (af/mg) yr _____ (af/mg)
I have data to support the above surface water use reductions due to wastewater reclamation. YES ____ NO ____

3. Conjunctive use of surface water and groundwater

- a. Are you now using groundwater in lieu of surface water? YES ____ NO ☒
- b. If credit toward use under a claimed pre 1914 appropriative right through substitution of groundwater in lieu of appropriated water is claimed under section 1011.5 of the Water Code, please show the amounts of groundwater used:
- yr _____ (af/mg) yr _____ (af/mg) yr _____ (af/mg)
I have data to support the above surface water use reductions due to conjunctive use efforts. YES ____ NO ____

I understand that it may be necessary to document the water savings claimed in "F" above if credit under Water Code sections 1010 and 1011 is sought in the future.

I declare that the information in this report is true to the best of my knowledge and belief.

ITEM	CONTINUATION

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or divert water which originates in a different watershed, water previously stored by others, return flows from use of groundwater, or other "foreign" water to the natural stream system.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914, new appropriators have been required to obtain a permit and license from the State. Appropriate rights can be granted to waters "foreign" to the natural stream system.

Statements of Water Diversion and Use must be filed by riparian and pre 1914 appropriative water users as set forth in Water Code section 5100 with specific exceptions. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversions, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include: (1) Statements of Water Diversion and Use, (2) Information Pertaining to Water Rights in California, and (3) Appropriation of Water in California.

October 22, 2002

Mr. Dennis J. Barkley
952 Kenilworth Ct.
Walnut Creek, CA 94596

Dear Mr. Barkley:

LICENSE NOS. 7878, 7879, 7880, 8302, 8567, 11931, AND 11860 (APPLICATIONS 19903, 19904, 19905, 20727, 20849, 25928, AND 26206) AND STATEMENT OF WATER DIVERSION AND USE NOS. 9665 AND 9676, ALL IN GLENN AND TEHAMA COUNTIES

Thank you for completing and returning the Reports of Licensee for the subject licenses. Per your letter dated October 13, 2002, we will update our records to show the new ownership of the subject licenses as follows:

<u>License/App No.</u>	<u>Action</u>
7878 (A019903)	Delete Merle Hamm Estate; add Masterson Properties
7879 (A019904)	" " " " " "
7880 (A019905)	Delete Frances Masterson Trust; add Masterson West
8302 (A020727)	Delete Merle Hamm; add Masterson Properties
" "	Delete Frances Masterson Trust; add Masterson West
8567 (A020849)	Delete Merle Hamm & Merle Hamm Est.; add Masterson Properties
11931 (A025928)	Delete Frances Masterson Trust; add Masterson West
11860 (A026206)	Delete Merle Hamm Estate; add Masterson Properties

The mail contact (agent) for each of these water rights remains unchanged.

You also indicated that you did not receive the 1999-2001 Supplemental Statement of Water Diversion and Use for Statement No. S009676. This may have been due to a recent change in agent name. Supplemental Statements are sent out based on the last name of the mail-code designee. In 2000, it was S-Z. In 2001 it was A-I, and the Statements for 2002 (due out early next year) will be for last names beginning with J-R. Because of this, on occasion the Supplemental Statements are not mailed on the usual three-year cycle when there is a change in owner or agent name. Nevertheless, a Supplemental Statement of Water Diversion and Use for 1999-2001 is enclosed. We appreciate you completing and returning the form at your earliest convenience. As requested, we will update our records for S009676 to delete Merle Hamm Estate as the Owner-of-Record and add Masterson Properties, c/o Dennis Barkley, 952 Kenilworth Ct., Walnut Creek, 94596.

Finally, your letter claims that the westerly point of diversion (POD) for S009665, located in the NE 1/4 of the SE 1/4 of Section 6, T22N, R5W, MDB&M, is incorrectly located on property owned by Mr. Joshua Soske, and inquired whether 1) we could re-locate the POD onto your family property located in

California Environmental Protection Agency

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our web-site at <http://www.swrcb.ca.gov>.

SURNAME
DWR 540

K Long 10/22/02

the NE ¼ of NE ¼ of Section 12, R6W, T22N, approximately one mile upstream, in order to correct an alleged error made at the time the original Statement was filed; and 2) whether the Pre-1914 water right claimed by Statement No. S009665 could be divided between your family's property and that of Mr. Soske.

The short answer is "no". The SWRCB Division of Water Rights (Division) has no jurisdiction over Pre-1914 rights. The Division's responsibilities are limited to tracking the claims made by individuals claiming a Pre-1914 water right, updating ownership and addresses, and maintaining a record of continuing use under those claims. The Division does not have authority to affirm a Pre-1914 right, or to modify Pre-1914 rights either by relocating a POD or splitting a right among multiple owners. If, however, you still believe you have a valid claim of Pre-1914 right to divert water for use on your property, and have sufficient evidence to support the claim in a legal contest or adjudication, you should file a new Statement of Water Diversion and Use. A form is enclosed for your convenience.

If you would like to file either a Registration of Livestock Stockpond Appropriation or a standard water right application, please let us know so we can send you the necessary forms, or download them off our web site at www.waterrights.ca.gov/forms.

If you have any questions regarding this letter, or would like the aforementioned forms sent to you, please write or contact me at (916) 341-5346, or e-mail at klong@waterrights.swrcb.ca.gov.

Sincerely,

S009676

October 13, 2002

Division of Water Rights
State Water Resources Control Board
PO Box 2000
Sacramento, CA 95812-2000

Dear People:

Enclosed please find the following seven completed water rights application reporting forms:
A019903, A019904, A019905, A020727, A020849, A025928, and A026206.

Please note that ownership has changed for these licenses to the indicated partnerships.

I note that I did not receive a similar reporting form for Supplemental Statement of use # S009676. Was this an oversight or have reporting requirements changed for this type of right? And please be informed that since probate has completed ownership for S009676 has now been distributed from the Merle M. Hamm Estate to the heirs and therefore S009676 is now owned by "Masterson Properties".

I believe that there is an error for a similar Supplemental Statement of Water Diversion and Use. As per a correspondence of my deceased Aunt Merle Hamm there was an adjudicated right ("Engle et al") for my Grandfather, Frank P. Masterson, at location N1/2 of NE1/4 of NE1/4 section 12, R6W, T22N, MDB&M. This right was for the field immediately south of the old homestead between the house and North Fork Stony Creek. Approximately 10 years ago our family also owned the property downstream (East) from this location, i.e. section 6 and the W1/2 of the W1/2 of section 5, R5W, T22N, MDB&M which is now owned by Mr. Soske. I believe that before this sale the location for this water right was incorrectly assigned to this eastern part of the property since it was all owned by the same person and so it didn't matter. I note that various license locations are marked on a map you people sent to me a number of years ago. This map shows two S009665 entries, one in section 6 and another in section 5 (both on the property that was sold to Mr. Soske). I believe that a) the western one of the two locator boxes is in error and should actually have been in the N1/2 of NE1/4 of NE1/4 of S12, R6W, T22N area and, b) that when the land was sold this right should have been assigned a new number to reflect either a division, or a corrected assignment, of the water rights to Mr. Soske and to our family. Can you please change your records to reflect this or help in straightening this out?

Thank you for your time and attention.

Sincerely,

Dennis J. Barkley

S 009665 - Supplemental Statement

Regarding S009665, the printed description on the Supplemental

Statement listing the Section thru which the North Fork of Stony Creek

runs through our land was incomplete. I have inserted the Section

number that said creek is on our land. For convenience I start at

the western boundary of our land and list the Section toward the East,

or downstream, for the 3+ miles of that creek on our land.

There water right is very important to us, and we rely on

them for stockwater in our cow-calf operation.

If there is something more I need to do, please let me know.

Sincerely,
Joshua L. Joske

1995 JUN 26 PM
DIV. OF WATER RESOURCES
SACRAMENTO

Dear Mr. Soske:

Enclosed is the "Supplemental Statement of Water Use and Use" for the reservoir in Section 6 that you purchased from me (on the statement: "within the NE 1/4 of SE 1/4 of Section 06, T22N, R 05W, MDB). As indicated, it is to be returned by July 1, 1993, to address of the State Water Control Board at the top of the statement.

In the last statement that I returned in 1990 I checked the months in which the water was used since I didn't know the amount.

	1987	Jan.	Feb.	March	Apr.	May	Dec.
1987	✓	✓	✓	✓	✓	✓	✓
1988	✓	✓	✓	✓	✓	✓	✓
1989	✓	✓	✓	✓	✓	✓	✓

In that statement

Purpose of Use (giving approximate numbers)

Stockwatering 1986 some 48 head cows, heifers, steers
1987 21 pairs, 8 heifers
1988 55 cows, 3 bulls
1989 48 pairs, 1 bull

NO change in method of diversion.

My signature then: Frances Louise M. Stevenson
Mastererson

Information for the enclosed statement for 1990, 1991, 1992.

Purpose of Use

Stockwatering

months of use
1990 Jan Feb March Apr. May
1991 ✓ ✓ ✓ ✓ ✓
1992 ✓ ✓ ✓ ✓ ✓

Nov. Dec.

(approximate number)

1990 1989-90 season 48 pairs, 1 bull
1991 only 16 head (very limited feed and water)
1992 some 50 head at the most.

I'm sending this certified since there is limited time to complete it.

Sincerely,

Frances Louise Mastererson

If part of the water listed in Part A consists of reclaimed or polluted water, please indicate the annual amounts of reclaimed or polluted water in the space below.

I declare under penalty of perjury that the information in this report is true to the best of my knowledge and belief.

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the source of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, or return flows from use of groundwater.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include:

- "Statements of Water Diversion and Use"
- "Information Pertaining to Water Rights in California"
- "Water Rights for Stockponds Constructed Prior to 1969"
- "Appropriation of Water in California"
